This information represents activity that has been processed and entered into TRS, and does not attempt to estimate any activity which has occurred, but which has not been entered into TRS. As further data are received, the number of reported commencements, completions and cancellations may increase, and these in turn affect in training numbers. Contract attributes such as employment type (e.g. full time, part time, school-based), project (e.g. ASBT) and employer site may change over time, causing numbers to fluctuate. Figures may differ from those published in earlier or subsequent reports. NCVET data is based on estimations of activity and therefore will be different to TRS data. The data are taken from the TRS snapshot dated 28.02.2018, which reflects data up to and including 31.12.2017.

Note: Data are derived from the WA Department of Training and Workforce Development's Training Records System (TRS). This information represents activity that has been processed and entered into TRS, and does not attempt to estimate any activity which has occurred, but which has not been entered into TRS. As further data are received, the number of reported commencements, completions and cancellations may increase, and these in turn affect in training numbers. Contract attributes such as employment type (e.g. full time, part time, school-based), project (e.g. ASBT) and employer site may change over time, causing numbers to fluctuate. Figures may differ from those published in earlier or subsequent reports. NCVER data is based on estimations of activity and therefore will be different to TRS data. The data are taken from the TRS snapshot dated 28.02.2018, which reflects data up to and including 31.12.2017.
