## **POLICY STATEMENT**

The Department of Training and Workforce Development (the Department) is committed to ensuring that funding for VET in Schools is prioritised for training that:

- industry deems is appropriate for school students;
- is consistent with workforce development priorities for Western Australia; and
- assists school students to achieve the requirements for the Western Australian Certificate of Education.

## **SCOPE**

This policy applies to all training providers contracted by the Department to deliver training to enrolled school students in Western Australia. It does not apply to training delivered on a fee-for-service basis or training funded by another government agency.

## **PRINCIPLES**

The VET in Schools Funding Policy is based on the following principles.

1. *Transparency* – Department funding arrangements for VET in Schools are transparent to all stakeholders including training providers, schools and students.
2. *Maximising Access* – funding available for VET in Schools courses undertaken outside of a training contract will be managed to ensure that the maximum number of students have access to high quality training at a TAFE college or with one of the Department's preferred private providers.

## **BACKGROUND**

The Department of Training and Workforce Development is responsible for funding all school-based apprenticeship and traineeships in Western Australia. The Department also provides a fixed amount of funding for other VET in Schools delivery that is aligned to the workforce development needs of the State. This funding is prioritised for students in their final two years of compulsory schooling who undertake VET as part of the requirements for achieving the WACE.

The list of courses eligible for funding through a Department funded VET in Schools program is the *VET in Schools Funded Course List* (see Appendix). The list is comprised of:

- courses undertaken as part of a school based apprenticeship or traineeship;
- courses considered by industry as suitable for delivery to school students; and
- courses subject to program-specific funding arrangements.

Some courses are designated only for funding when delivered to school students in regional areas. This occurs where the Department considers, in liaison with the Department of Education, that there are sufficient course delivery options for the school sector in the metropolitan region, or where existing levels of VET in schools course delivery are high relative to labour market demand.

This policy outlines the eligibility of enrolled school students to access funding for courses listed in the *VET in Schools Funded Course List*. The list is reviewed annually and may be updated throughout the year to reflect changes in training package qualifications and accredited courses.

## DEFINITIONS AND ACRONYMS

**School** means a government school or a non-government school, as defined in the *School Education Act 1999*.

**School-based apprenticeship or traineeship** means a structured paid employment based training program that leads to school based apprentices or school based trainees gaining a nationally recognised qualification. School based apprenticeship and traineeships are part time and subject to conditions stipulated on the Public Register.

**VET** means vocational education and training.

**VET in Schools** means any VET undertaken by an enrolled school student.

**VET in Schools Funded Course List** means the list of courses funded by the Department for VET in Schools delivery.

**WACE** means the Western Australian Certificate of Education.

## PROCEDURES

1. The VET Fees and Charges Policy applies to course fees for publicly funded VET in Schools. This means secondary school students are exempt from course and resource fees if they:
  - a) are enrolled at school, as defined in the *School Education Act 1999*; and
  - b) are undertaking a VET course.
2. An enrolled school student is eligible to access funding for any school based apprenticeship or traineeship listed on the *VET in Schools Funded Course List*, provided that the student is legally able to be employed.
3. There is no restriction on the number of funded school based apprenticeships or traineeships listed on the *VET in Schools Funded Course List* that an enrolled school student may access.
4. An enrolled school student in Year 11 or 12 is eligible to access funding for a course on the *VET in Schools Funded Course List* where it is undertaken outside of a training contract if the student has not previously completed a course funded by the Department.
5. Completion of a course through the Department's Aboriginal School Based Training Program does not prevent an enrolled school student from accessing funding for an additional course on the *VET in Schools Funded Course List* in Year 11 or Year 12.
6. An enrolled school student in Year 10, 11, or 12 may be eligible to access funding for specific courses included in the Department's Aboriginal School Based Training Program subject to meeting the program's eligibility requirements.
