## Introduction

This Implementation Guide has been generated to enable the stakeholders in the Animal Care and Management Industry in Western Australia to participate in the managed implementation of the National ACM10 Animal Care and Management **Version 3**

This Guide is designed to aid Registered Training Organisations (RTOs) to convert from existing Training Package qualifications to new Training Package qualifications within the scope of their training delivery.

The Guide should be read in conjunction with the **endorsed components** of the Training Package

**Version 3** of the ACM10 Animal Care and Management Training Package was released by Training.Gov.Au (TGA) on the **7 December 2012**.

## Obtaining the Training Package

The ACM10 Animal Care and Management Training Package can be purchased from:

## Transition Arrangements

Registered Training Organisations (RTOs) are required to deliver Training Package qualifications within 12 months of the release date of the Training Package on to Training.gov.au (TGA).

Students currently enrolled in an existing version of the Training Package qualification should be permitted to complete the program they enrolled in initially, unless the move to the related qualification from a Training Package can be made without disadvantage to a student.

## Nominal Hours

The Commonwealth Department of Employment, Education and Workplace Relations' definition of nominal hours states:

***“The value assigned to a structured program of study that nominally represents the anticipated hours of supervised learning and/or training deemed necessary to conduct training/learning and assessment activities associated with the program of study”***

Source: National Quality Council Training Package Glossary Version V2.1 17/03/2010  
<http://www.deewr.gov.au/Skills/Overview/Policy/TPDH/Downloads/Documents/TrainingPackGlossary.pdf>

Nominal hours are identified for each Training Package qualification. Total nominal hours may vary within a qualification depending on the units of competency

In Western Australia, nominal hours are used as a mechanism for funding allocation.

## Licensing Requirements

Regulatory compliance with the Australian Code of Practice for the Care and Use of Animals for Scientific Purposes applies to some units of competency. In addition, individual units of competency may specify relevant licensing, legislative and/or regulatory requirements.

## Qualifications and Nominal Hours

The following table provides a summary of the qualifications and nominal hours in the AMC10 Animal Care and Management Training Package
