Foreword

This Implementation Guide has been generated to enable the stakeholders in the Outdoor Recreation and Education Industries in Western Australia to participate in the managed implementation of the Outdoor Recreation Industry Training Package (SRO03).

The Guide has been developed with cooperation from WA Industry, Registered Training Organisations (RTOs) delivering outdoor recreation qualifications and key stakeholders in industry sectors where publicly funded training has not been apparent in the past. To achieve maximum advantage from the Guide, its implementation should occur in a planned manner.

Information within the Guide should provide guidance on how Competency Standards may be selected and applied to achieve suitable outcomes and qualifications, for and within an industry.

The Outdoor Recreation Industry Training Package was endorsed by Ministers for vocational education and training on January 16, 2003.

Acknowledgments

The Department of Education and Training Implementation Guide for the Outdoor Recreation Industry Training Package was prepared by Central TAFE.

The WA Department of Education and Training funded the development of the Guide.

The WA Department of Education and Training wishes to acknowledge the many individuals and organisations who have contributed willingly and constructively to this Guide.

The following Industry Sectors and representatives were consulted during the development phase:

Mr Terry Hewitt	President, Outdoors WA
Mr Mat Hyland	Centre for Sport and Recreation, Central TAFE
Mr Tom Shackles	State Training - NOLRS Director, Outdoors WA
Ms Ros Howell	Program Manager, Centre for Health Sport and Recreation, Central TAFE
Mr David Boldy	Outdoor Training Supervisor, Scripture Union WA
Ms Catherine Wood	Outdoor instructor, Methodist Ladies College
Mr Mal Gammon	Executive Director, WA Arts, Sport and Recreation Industry Training Council
Ms Margaret Rhodes	CSSN Chairperson

As well as Western Australian Outdoor Recreation training providers and industry representatives from the CSSN, the following providers were consulted during the development of this Implementation Guide:

- Central TAFE
- Challenger TAFE
- Southwest College of TAFE
- West Australian Arts, Sport and Recreation Industry Training Council
- West Coast College of TAFE

Introduction

This Guide provides information that will facilitate the implementation of the Outdoor Recreation Industry Training Package SRO03 in Western Australia.

This Guide is designed to aid Registered Training Organisations (RTOs) to convert from existing Training Package qualifications to the revised Training Package qualifications within the scope of their training delivery.

The Guide should be read in conjunction with the **endorsed components** of the Outdoor Recreation Industry Training Package SRO03.

The Guide provides information on:

- Transition arrangements
- Funding
- An indication of availability of supporting materials for delivery of qualifications
- An allocation of nominal hours to units of competency and total hours for qualifications
- A mapping of current qualifications to the new Training Package qualifications
- A mapping of existing units of competency to the revised units of competency where the correlation is appropriate
- A mapping of current Traineeship and Apprenticeship courses to new qualifications
- A set of appropriate sample, or model, training programs at each AQF level

Obtaining the Training Package

The Outdoor Recreation Industry Training Package can be purchased from:

Information on National Training Packages is also available through the National Training Information Service (NTIS), which can be located on the Internet at: www.ntis.gov.au

<p>All RTOs who have Training Package qualifications on their Scope of Delivery must obtain a copy of the relevant Training Package.</p>

An Overview of the Outdoor Recreation Industry

The purpose of this Implementation Guide is to assist teachers, trainers, administrators and employers to understand and use the Outdoor Recreation Industry Training Package, and in particular, to explain how and when it replaces existing Outdoor Recreation programs in Western Australia.

The qualifications in the Outdoor Recreation Industry Training Package are unusual because, in most cases, they are more flexible and open than qualifications found in other Training Packages. Their principal design features are:

- The qualifications have a defined core of required competencies;
- A specified number of units of competency from a defined functional stream of the Outdoor Recreation Industry Training Package, and specified level in the Australian Qualifications Framework. This usually, but not always, allows a choice;
- At least 2/3 of the competencies must come from the Outdoor Recreation Industry Training Package, thus ensuring in all cases a critical weight of Outdoor Recreation units of competency; and up to 1/3 of the competencies may come from other areas in the Outdoor Recreation Industry Training Package or from other endorsed Training Packages

Training Packages are living documents. Changes are periodically made to reflect the latest industry practices.

As a user of the Training Package, and before commencing any form of training or assessment, you must ensure delivery is from the current version.

Ensure you are complying with this requirement by:

- Checking the version identifier code of the version you currently have (located on the imprint page, just below the copyright statement);
- Accessing the Australian Training Products website and comparing the version identifier. This information is displayed in the sample of the Training Package; and
- Where the Australian Training Products website shows a different version, the Modification History, again shown on the Australian Training Products website in the Training Package sample, will display the changes made in all versions.

Australian Training Products website for version comparison: **<http://www.atpl.net.au>**

The Modification History is also visible on the website of the developer of the Training Package: **<http://www.srtaustralia.org.au>**

Changes in units of competency and packaging of qualifications are reflected on the National Training Information Service which only displays current information:

Transition Arrangements

Registered Training Organisations (RTOs) will be encouraged to deliver Training Package qualifications by 12 months from sign-off of the Training Package by the National Training Quality Council, on behalf of Ministers. A current accredited course, however, may be used until its accreditation expires.

An RTO with the scope of registration authorising delivery of existing programs will be deemed to have the resources and facilities to deliver the new qualification/s. An amendment of Scope will not be necessary, although the Training Accreditation Council (TAC) will need to be advised of any new qualifications from the new Training Package being delivered.

Existing Courses

Existing Western Australian owned courses affected by the introduction of the new qualifications will be retired as soon as practicable after December 2004. New enrolments in 2005 should therefore be directed into new Training Package qualifications.

Transition to New Qualifications

Learners currently studying programs in Sport and Recreation and Outdoor Recreation qualifications should be permitted to complete under the existing qualification code.

Funding

Some learners may only achieve a Statement of Attainment during their enrolment period with the RTO. Separate funding is not provided to assess the learner who has left his/her studies and then, at a later date, wants to complete an integrated assessment to achieve a certificate qualification. The RTO will be required to make special arrangements to issue the final qualification. This process may involve an invitation to the employer (if applicable) to participate in the assessment in the workplace.

Nominal Duration of Qualifications

The maximum nominal hours are identified for each Training Package qualification. Nominal hours may vary within a qualification depending on the units of competency selected and the delivery strategies used; however, training delivery will not be funded beyond the maximum nominal hours indicated. Nominal hours are for structured training only and include both delivery and assessment.

Definition of nominal hours (supervised)

The hours of supervised learning or training deemed necessary to cover the educational material in a training program when undertaken in standard classroom delivery mode. (*Source: A Glossary of Australian Vocational Education and Training Terms*).

Licensing Requirements

The current endorsed Outdoor Recreation Industry Training Package does not contain reference to licences which are required for those working in the industry.

Assessment Guidelines

Assessment Guidelines are one of the Endorsed Components of the Outdoor Recreation Industry Training Package.

Learning Resources and Assessment Materials

Learning resources and assessment materials make up the non-endorsed component of the Training Package. There is a range of learning resources for the Outdoor Recreation Industry Training Package currently available and under development.

A number of assessment related resources are also available from:

- Australian Training Products Limited;
- The Australian National Training Authority;
- WestOne Services

Trainers should consider the use of existing resources and/or resources sourced from a third party carefully, as some may need to be modified to suit the learning and assessment strategy developed by the RTO. In particular, resources previously used for training and assessment against accredited modules may not be suitable for the Units of competency without modification.

Examples of Training Package Programs

Units of competency may be customised so that the tasks involved in demonstrating competence are designed to meet the requirements of an individual enterprise or to satisfy regulations in a particular state or territory.

Each qualification in the Outdoor Recreation Training Package SRO03 may be customised to meet the context in which the training is taking place. A qualification can also be customised to accommodate a learner's chosen career pathway.

The following are examples of suitable training programs for Outdoor Recreation Training Package SRO03. The models are not intended to be prescriptive but illustrate ways that qualifications can be achieved.
